

## Pendleton Field Day Schedule for June 15, 2010

| Time                |  | Activity                 |   |
|---------------------|--|--------------------------|---|
| 7:30                |  | Registration             |   |
| 8:00                |  | Welcome and Introduction |   |
| <b>Group 1 Tour</b> |  | <b>Time</b>              |   |
| <b>Group 2 Tour</b> |  |                          |   |
| <b>8:10</b>         | Load Busses  | <b>8:10</b>              | Load Busses   |
| <b>8:15</b>         | <i>Camelina Production and Use,</i><br>Don Wysocki, OSU Extension Soil Scientist   | <b>8:15</b>              | <i>Improving N Management for Soft White Winter Wheat,</i><br>Steve Petrie, OSU Superintendent  |
| <b>8:35</b>         | Identifying and Managing Fusarium Crown Rot,<br>Richard Smiley, OSU Plant Pathologist  | <b>8:35</b>              | <i>Barley and the winter,</i><br>Pat Hayes, OSU Barley Breeder  |
| <b>9:00</b>         | <i>Herbicide evaluations for downy brome control</i><br>Dan Ball, OSU Weed Scientist   | <b>8:55</b>              | <i>OSU Winter Wheat Varieties Trials,</i><br>Mike Flowers, OSU Cereal Specialist  |
| <b>9:25</b>         | <i>Identifying Resistance to Plant Diseases in the OSU Wheat Breeding Program,</i> Chris Mundt, OSU Plant Pathologist  | <b>9:20</b>              | <i>Club Wheat Breeding Variety Trials,</i><br>Kim Campbell USDA-ARS Wheat Breeder   |
| <b>9:45</b>         | Break (refreshments available)   | <b>9:45</b>              | <b>Break</b> (refreshments available)   |
| <b>10:05</b>        | <i>Beneficial and Pest Insects of Cereal Crops – Their Identification and Biology,</i> Mary Corp, OSU Cereal Extension Agent, Silva Rondon, OSU Entomologist | <b>10:05</b>             | <i>One Tillage Pass Can Produce Highly Effective Summer Fallow,</i><br>Stewart Wuest USDA-ARS Soil Scientist  |
| <b>10:25</b>        | <i>New Federal Pesticide Regulations Update</i><br>Cory Cooley, ODA Pesticide Coordinator  | <b>10:25</b>             | <i>Potential profit for segregating wheat by protein concentration,</i><br>Dan Long, USDA-ARS Research Leader   |
| <b>10:45</b>        | <i>Soil and Water Conservation in a Four-year Crop Rotation,</i> John Williams, USDA-ARS, Hydrologist  | <b>10:45</b>             | <i>Improving Management of Dryland Agricultural Soils</i> Hero Gollany, USDA-ARS Soil Scientist   |
| <b>11:05</b>        |  | <b>Hosted Lunch</b>      |   |
| <b>12:00</b>        | Load Busses  | <b>12:00</b>             | Load Busses   |
| <b>12:05</b>        | <i>Improving N Management for Soft White Winter Wheat,</i><br>Steve Petrie, OSU Superintendent   | <b>12:05</b>             | <i>Camelina Production and Use,</i><br>Don Wysocki, OSU Extension Soil Scientist  |
| <b>12:25</b>        | <i>Barley and the W winter,</i><br>Pat Hayes, OSU Barley Breeder   | <b>12:25</b>             | Identifying and Managing Fusarium crown rot,<br>Richard Smiley, OSU Plant Pathologist   |
| <b>12:45</b>        | <i>OSU Winter Wheat Varieties Trials,</i><br>Mike Flowers, OSU Cereal Specialist   | <b>12:50</b>             | <i>Herbicide evaluations for downy brome control</i><br>Dan Ball, OSU Weed Scientist  |
| <b>1:10</b>         | <i>Club Wheat Breeding Variety Trials,</i><br>Kim Campbell USDA-ARS Wheat Breeder  | <b>1:15</b>              | <i>Identifying Resistance to Plant Diseases in the OSU Wheat Breeding Program,</i><br>Chris Mundt, OSU Plant Pathologist  |
| <b>1:35</b>         | <b>Break</b> (refreshments available)  | <b>1:35</b>              | <b>Break</b> (refreshments available)   |
| <b>1:55</b>         | <i>One Tillage Pass Can Produce Highly Effective Summer Fallow,</i><br>Stewart Wuest USDA-ARS Soil Scientist   | <b>1:55</b>              | <i>Beneficial and Pest Insects of Cereal Crops – Their Identification and Biology,</i><br>Mary Corp, OSU Cereal Extension Agent, Silva Rondon, OSU Entomologist |
| <b>2:20</b>         | <i>Potential profit for segregating wheat by protein concentration,</i><br>Dan Long, USDA-ARS Research Leader  | <b>2:20</b>              | <i>New Federal Pesticide Regulations Update</i><br>Cory Cooley, ODA Pesticide Investigator  |
| <b>2:40</b>         | <i>Improving Management of Dryland Agricultural Soils,</i><br>Hero Gollany, USDA-ARS Soil Scientist  | <b>2:40</b>              | <i>Soil and Water Conservation in a Four-year Crop Rotation,</i><br>John Williams, USDA-ARS, Hydrologist  |
| <b>3:00</b>         | Ice Cream Social (Courtesy Oregon Wheat Growers League) followed by OSU Town Hall Meeting on OSU Wheat Breeding Program and CBARC Budget                     |                          |   |
